

Adobe Creative Cloud for teams

Introducing Adobe Spark with premium features

Create stunning visual stories for your business—in minutes.

Adobe Spark makes it fast and easy for anyone to turn ideas into beautiful graphics, web pages, and video stories anywhere. And Adobe Spark with premium features—now part of any Creative Cloud plan—lets you add your own logos, colors, and other brand elements to make anything you create unique to your business.

Key features

Create a social media post in seconds.

Adobe Spark Post lets you turn your text and photos into professional-looking, attention-getting social media graphics for your business. Simply pick a design template, add your photo, text, and even your logo. Then quickly resize your creation to fit your favorite social media site or blog.

Wow them on the web.

Transform words, images, and videos into dynamic, branded web pages with Adobe Spark Page. Select from a wide variety of curated designs, add your content, and you're done. Put a unique twist on anything—a sales report, product announcement, or weekly newsletter.

Make a moving statement.

Adobe Spark Video makes it easy to combine video clips, photos, icons, voiceovers, and your brand—plus cinematic motion and professional-quality soundtracks—to create compelling video stories. It's big-impact communication that takes just minutes to create, and a great tool for marketing, sales, internal communications, and more.
