about Impero i-Safeguard

All staff working in either private or state schools in the UK are required to undergo regular safeguarding and child protection training, as set out in the Department of Education's Keeping Children Safe in Education statutory guidance.

Does your school have this covered?

Here at Impero, we've partnered with Victvs to bring you Impero i-Safeguard, an online staff training hub, making it easy to keep your school compliant when it comes to safeguarding training.

Special pricing, exclusive to **Impero Education Pro customers**, has been established to ensure schools are fully equipped to deal with the safeguarding issues identified by the software.

training hub

Agreeing a date that everyone can attend, ensuring content is current, negotiating the cost of consultants, travel expenses and lunch - the list goes on. Arranging staff training can be difficult, costly and easy to overlook but, for something as critical as safeguarding, you can't afford to get it wrong.

Impero i-Safeguard is an online training hub that provides school staff with the opportunity to meet all of their legally-required safeguarding training requirements online, at a time that's convenient, and gain three CPD accredited certificates in safeguarding in the process.

the details:

- Safeguarding training modules that cover all topics specified in the DfE's Keeping Children Safe in Education 2016 guidance
- 365-day access to 12 essential safeguarding training modules, delivered online
- CPD accredited e-learning platform
- Progress monitoring - download and print out records of completion for inspections and compliance purposes
- Active notes functionality - take notes throughout training sessions without leaving the learning environment
- Message group members - schedule group training sessions and send messages to inform learners
- Annual updates - ensuring all content is accurate and in line with government guidelines
- Three certificates in safeguarding to be earned and showcased in the school
- Termly updates - notifying users about the latest safeguarding information, including changes to legislation

certificate	prerequisite	modules to complete	assessment to pass
Level 1 – Basic Certificate in Safeguarding	<ul style="list-style-type: none"> ➤ Signed up by the school as a unique i-Safeguard user 	<ul style="list-style-type: none"> ➤ Abuse and Neglect ➤ Prevent Duty Awareness ➤ Female Genital Mutilation 	Online basic course assessment – multiple choice
Level 2 – Intermediate Certificate in Safeguarding	<ul style="list-style-type: none"> ➤ Signed up by the school as a unique i-Safeguard user ➤ Have already passed level 1 	<ul style="list-style-type: none"> ➤ Child Sexual Exploitation ➤ Alcohol and Substance Misuse ➤ Mental Health ➤ Forced Marriage ➤ Bullying Awareness ➤ Domestic Abuse and Teenage Relationship Abuse 	Online intermediate course assessment – multiple choice
Level 3 – Advanced Certificate in Safeguarding	<ul style="list-style-type: none"> ➤ Signed up by the school as a unique i-Safeguard user ➤ Have already passed levels 1 and 2 	<ul style="list-style-type: none"> ➤ Abuse Linked to Faith and Belief ➤ Gangs and Youth Violence ➤ Trafficking 	Online advanced course assessment – multiple choice

support

Impero i-Safeguard comes with a dedicated support service managed by Victvs. This includes around the clock telephone, email and live chat support (with an experienced member of the Victvs team) and access to the i-Safeguard forum.

the forum:

The i-Safeguard forum connects members with the wider safeguarding community to share advice and experience. Featuring regular contributions from Designated Safeguarding Leads (DSLs), from a variety of professional settings, members can post questions and topics into the forum as they work through the training modules.

Social learning gives i-Safeguard members a much more connected experience as they progress through their training, and allows frontline workers to share best practice and advice in a purpose-built safe space. With core members including staff from the NSPCC, Girl Guiding and Save the Children, the i-Safeguard forum is the only forum dedicated to improving best practice in safeguarding.

about Impero

Impero is the author of Impero Education Pro, a consolidated suite of network management, online safety and classroom control tools, designed to **support IT teams, empower teachers and protect students**. Aligned to Ofsted and ISI best practice, Impero Education Pro creates a safe, engaging and efficient learning environment for our digital age.

In recent years the online safety aspect of Impero Education Pro has become a major focus, in response to new legislation and growing concerns around student safety online. The development of keyword policies (including adult content, counter-radicalisation, cyberbullying, grooming, LGBT derogatory language, racist language, self-harm, sexting, suicide, violence and weapons and much more) is a priority and we work with leading charities and young people to develop and maintain the terms and phrases associated with each safeguarding risk.

These policies work by detecting the use of keywords or phrases that may give cause for concern. If one of the phrases is detected on a device (typed in an email, on social media or in a search engine, or present on a website or in a URL), Impero Education Pro takes a screen shot or video capture of the device, providing the school with the context of the incident, including 'who, what, where' style information.

about Victvs

Victvs provides both online and in-house training courses on complex social topics, helping schools to understand threats and how to respond to them. All courses are developed by experts with decades of real world experience in their field and use plain English (no jargon!) to give staff the confidence and knowledge to safeguard young people in their care.

Impero has partnered with Victvs, to draw on their years of experience and specialist content, to launch Impero i-Safeguard - a comprehensive online training hub, designed to keep schools compliant and provide them with a first class training suite for all their members of staff.

This can be used to open up dialogues with the student concerned and enables staff to safeguard as appropriate. It's all about identifying and supporting young people before things potentially escalate. This best practice approach is outlined below:

Educating students to act responsibly online, with real-time monitoring

1. Research

Keyword policies developed with schools, experts & leading charities.

impero

2. Monitor

Keyword detection with real-time monitoring.

3. Capture

Photo/video capture to provide staff with context.

4. Log

Log the captures for detailed incident reporting.

impero & School

5. Educate

Discuss issues, offer counter narratives and intervene before things escalate.

School

6. Safeguard

Encourage responsible behaviour online, both in school and out.

Student

Teaching staff can't be expected to be experts on all areas of safeguarding, so these terms are weighted by severity. Each term comes with a full explanation of why it is of significance and what risk it may potentially expose. Now, with the introduction of Impero i-Safeguard, we can provide staff with the training and confidence they need to address these risks, open dialogues with students and, ultimately, keep young people safe.
