**AVID**<sup>®</sup>  
EDUCATION

## Letter from the President/CEO

On behalf of all AVID employees, I'd like to thank you for taking the time to view our K-12 education product assortment. We make every effort to offer a variety of products and effective solutions that meet the growing and ever-changing technology-based classroom environment, taking seriously our responsibility to provide value-priced headsets to school systems with the understanding that we are the important link connecting the student to technology.

This year we are proud to introduce our new AE-55 headset. The AE-55 is our answer to the TELPAS testing standard being adopted by school systems at the state level. We've worked with students in developing a comfortable, durable and affordable headset that meets the TELPAS testing standards. We are very appreciative of the feedback we received along the way. As a headset provider, it's always a good idea to listen.

As an employee-owned company, AVID will continue to develop quality audio products for the minds of the future by keeping abreast of the evolving technologies within the classroom environment. Providing quality, innovation and value that enhances the learning experience is at the heart of our mission for educators and students.

A handwritten signature in black ink, appearing to read "M. Twist", written over a light gray circular background.

Michael Twist  
AVID Products  
President/CEO

# Quality • Innovation • Value

AVID is constantly adapting to changes within education and developing effective products that assist with the diverse needs of the classroom and student experience. Part of the AVID creative development process is to analyze classroom needs, current and future technologies, testing requirements, and curriculum formats. Collaborating with you is an opportunity that is highly welcomed and encouraged. All this information is used to optimize product and accessory assortments that will provide quality, innovation and value to enhancing the learning experience.

## Quality

Providing quality service and cost-effective product solutions that you can count on.

## Innovation

Research and creative process with a focus on developing products that enhance the learning experience.

## Value

Providing a collaborative partnership that strives to exceed expectations.

**At AVID you are not just another customer.**

**Our team is with you every step of the way!**

# Did you know?

## **Passive Noise-Reduction**

Passive Noise-Reduction helps lower the overall decibel level of background noise while still allowing users to hear someone speaking to them.

### **Where passive noise-reduction can be beneficial:**

- Students with Autism or Auditory Processing Disorder often have a hard time with noise and can greatly benefit from passive noise-reduction technology. Background noise is a constant nuisance and causes major difficulty when it comes to processing information and sorting the important from the unimportant.
- Labs and classrooms
- School cafeteria
- Concerts or sporting events
- Loud external conditions
- Situations where multiple conversations are being held

## **Assistive Technology**

Assistive Technology (AT) is an umbrella term that includes assistive, adaptive, and rehabilitative devices for people with disabilities while also including the process used in selecting, locating, and using them.

### **Today most AT tools for reading are used on one of three computer platforms for assistive technology:**

- Desktop and laptop computers
- Mobile devices (includes smart phones and tablets)
- Chromebooks (and the Chrome browser used on any device)

AVID Products can assist with auditory processing issues as well as attention issues. Whether it is PA speakers around the room or personal audio listening devices, our catalog is filled with a number of product solutions to best fit your needs and enhance the learning experience.

Follow AVID Products for the latest news

## Headphones, Headsets, Earphones or Earbuds, which is right for you?

At AVID we want to make sure you have a solid understanding of how we refer to each.

### Headphones and Headsets:

Headphones are worn on or over the ear, typically with ear pads and an over the head adjustable band. Headsets mimic the same characteristics, but include a microphone for interactive use. There are a number of different models within each type that offer various options.

### Earphones and Earbuds:

Earphones are inserted into the ear canal, while Earbuds rest outside the ear canal. There are a number of different models within each type that offer various options.

## AE-55 Headset

**Meeting dynamic testing requirements just got a lot easier!**

AVID is very excited to announce the release of the AE-55 headset. Designed to deliver on various state testing requirements, including the Texas English Language Proficiency Assessment System (TELPAS).

The AE-55 takes center stage and raises the bar with testing versatility, comfort, quality and value.

CHEW RESISTANT BRAIDED CORD

ADVANCED SOUND QUALITY

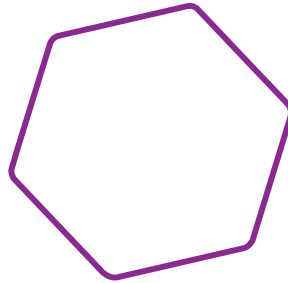

## AE 404 Headphones

**Small in size...big in comfort, sound, and value!**

Designed to the same standards as the 807, just in a smaller size, the newly released AE-404 provides a 3.5mm plug size that makes it compatible with a variety of devices. Comfortable vinyl padded ear pads help block out distracting ambient noises and are easy to clean, padded headband, and quality sound. It is the perfect lab headphone choice for younger students.

## Fishbone

To help prevent costly 3.5mm pin breakage, AVID developed the in-line Fishbone adapter. It flexes, allowing the pin to disengage smoothly when the attached audio cable is suddenly pulled from the jack at an angle which is a common occurrence in the classrooms.

Winner of the 2017 ISTE Best of Show, the Fishbone is a must-have in the classroom to protect your equipment.

# Lab Headphones: AVID 800 and 400 Series

The full-size 800 series and new compact size 400 series are built to be durable for use on a daily basis, making them the perfect lab headphones. Specifically designed to be assigned per lab computer station and used by multiple students over the course of the day. The available braided cord is a proven chewing deterrent, which is a very important feature with multiple users and extends product life.

Both series come with vinyl earpads and headbands that are easily cleaned and sanitized by quickly wiping with a damp disinfecting cloth. Comfortable earpads with extra padding help block out distracting ambient sound and aid in student concentration. Helping students learn at their own pace without being distracted by another student's progress.

The 800 series has models that are available in color options, adding some style and greatly aids in group learning sessions and curriculum requirements. Easily assign student learning groups by providing a different color headphone to each listening center.

## AE-807

A great headphone solution for the budget-conscious classroom that is built to last. Offering features that provide comfort and quality sound.

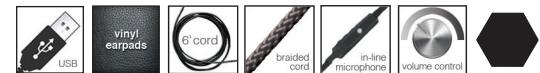

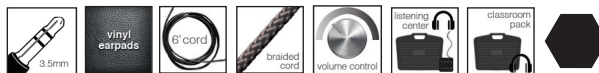

## AE-808 USB

This model provides a USB 2.0 plug for superior sound and connectivity. Identical to our full-size AE-808 headphones and features a straight cord with in-line volume controls.

## AE-404

A smaller version of the popular 807 with the same rugged construction and features. The perfect solution to assist with the dynamic learning experience of younger students.

## AE-808

The ultra-durable construction allows for multiple uses all year long. Easily switch from stereo to mono sound with volume control for individual hearing needs. Providing a 3.5mm plug size that makes it compatible with a variety of equipment.

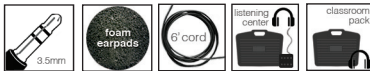

# AVID 700 Series Headphones

The 700 series, an affordable entry-level headphone, is a time-proven design and a staple in the core line of AVID products built for the education market. Featuring a single 3.5mm plug for compatibility with a wide number of electronic devices.

This headphone is built with comfort in mind. Equipped with an adjustable headband that fits heads of all sizes, a 6-foot cord that gives a wide range of motion, and padded foam ear pads. Another example of quality education solutions developed by AVID Products with the classroom experience in mind.

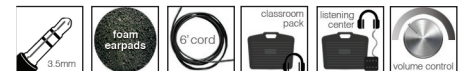

## AE-711

Students tend to be more careful with their own property, and the AE-711 is perfect to assign one to each student. The small size makes it easy to store in their desk or locker. The AE-711 is certainly a must-have for all budget-conscious schools. AE-711R with rotating ear pieces is available in black.

## AE-711VC

This is a lightweight, personal headphone, perfect for audio books and other audio applications. The adjustable headband fits a variety of students and volume control allows them to listen at their own comfortable level.

## AE-711V

Like our AE-711 headphone but with vinyl earpads. The vinyl is easy to clean and provides extra comfort. The earpieces rotate flat for easy storage.

*700 Series is available with storage solutions.*

*Refer to page 23 for details.*

# Additional Headphones

AVID offers additional headphone models that are designed with the cost-conscious classroom in mind.

## FV-060

Medium sized headphone that is perfect as a personal headphone or even as a lightweight lab headphone. The earpads fit nicely around the ear and help block out surrounding noises. The earpieces rotate flat for easy storage in a desk or backpack.

## AE-812

This model features our innovated Automatic Sound Limiting technology. The sound automatically stops at 85dB which is deemed a safe listening level by the American Speech-Language-Hearing Association (ASHA). This prevents students from turning the sound up to unsafe levels and requires no monitoring by the teacher.

## AE-08

If you are looking for an affordable over-the-head style headphone, this low-cost quality solution is the perfect choice.

# AVID 30 Series Headsets

The stylish 30 Series is a proven design specifically developed with the rigors of the school environment and sound quality in mind. Already used by thousands of students, this lightweight headset is equipped with a noise-canceling microphone, making it ideal for a variety of classroom settings and easy to use, store, and clean.

Equipped with the AVID signature nylon-braided cord that works as a chew deterrent, providing valuable protection for your equipment investment. The 6-foot cord length allows for a wide range of motion to help facilitate an interactive learning environment and wraps up easily into a Velcro tie. The adjustable padded headband and mid-size ear pads provide comfortable fit across diverse age groups and are extremely easy to maintain. The material can be quickly wiped clean with any gentle over-the-counter cleansing product.

*Ideal for testing, language learning software, recording podcasts, presentation narration and other applications.*

## AE-35

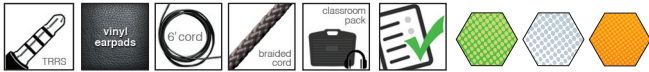

The AE-35 is a headphone within the 30 series that has the exact same features and quality as the AE-36 model. Great for school, home, libraries and more.

## AE-36

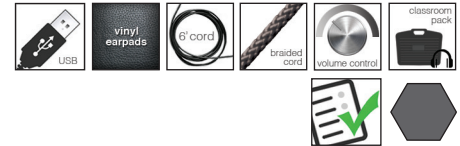

Already used by thousands of students across the United States, the stylish AE-36 headset is equipped with a noise-canceling adjustable boom microphone. A great solution for testing by allowing students to record their answers in a clear and quiet manner.

Available in three pattern colors, the AE-36 is a perfect choice to assist with enhancing the student learning experience and engagement.

## AE-39

The AE-39 has the exact same features as the AE-36 model but is equipped with a USB plug. A great choice for plugging directly into a computer USB port.

## TRRS Adapter

Use the AE-35 or AE-36 on a computer that has two jacks with the TRRS Plug Adapter. Quickly converts a single TRRS.

*This item is sold separately.*

# Additional Headset Models

AVID offers a variety of quality headset models with boom and in-line microphones.

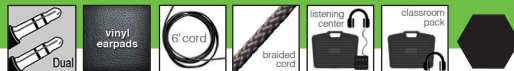

## AE-9092

A full-sized headset with in-line microphone and volume control. The microphone is conveniently located high on the cord and close to the user's mouth. Operate the speaker volume and the microphone from the convenient in-line controls. With the AE-9092, the student will be isolated from external distracting noise and able to read along with what is on the computer or single device screen. The AE-9092 works great with devices that have a single input jack such as iPads®, Chromebooks® and more!

## AE-18

Lightweight headset with an adjustable boom microphone that can adjust to comfortably fit students of all ages. Whether K-12 or Higher Education, the AE-18 delivers quality and versatility.

## SMB-25V

This full-sized headset comes with comfortable earpads that surround the ear. Greatly assisting in blocking out ambient noises within the classroom, helping students to concentrate on their lesson. The goose-neck style boom microphone can be adjusted as close to the mouth as needed and can be positioned safely when not in use.

## AE-981

The AE-981 with USB is the perfect headset for language learning software. Offering excellent sound quality and removing the need for software to continually configure the microphone. The soft cushioned vinyl headband and earpads help to maintain comfort.

This model comes with an extra pair of earpads.

# AE-66

## Full Size Sound in Half the Space

The AE-66 headset features an innovative space saving hinge design that allows both ear cups to easily fold away into the headband, making it easy to store away in classrooms and storage lockers. The AE-66 delivers on sound quality. The vinyl earpads block ambient noise and full-size speakers produce a high-fidelity sound. Together they enable students to experience audio instruction with unmatched clarity.

## Comfort Padding

Featuring one of the most comfortable earpads available in the industry, they fit over the ear extremely well and offers superior passive noise-reduction properties. The adjustable padded headband also holds the headphones securely in place without compromising comfort or fit.

The AE-66 is one of the most highly adjustable headsets available on the market.

Foldable cups for easy storage.

# AE-42 Headset

## Built Tougher than the Classroom

AVID is committed to providing a comfortable listening experience and understands that the classroom environment can be one of the roughest places for any technology device. This knowledge went into the development of the stylish AE-42 with in-line microphone and controls. Minimal moving parts and a rugged headband built to withstand even the toughest mechanical abuse make this one of the most robust thin-profile headset solutions on the market.

## Comfort + Quality = Enhanced Listening Experience.

The AE-42 features speakers that provide quality audio and the adjustable padded headband with repositionable ear cups that all work together to provide an incredibly comfortable fit for students of all ages. The slim design adds to the overall comfort. It's easy to see why the AE-42 with in-line microphone and controls will provide an enhanced listening experience.

AVID

# Earphones and Earbuds

AVID earphones and earbuds are the perfect budget-friendly option for higher grade students and adults. Provide one pair per user for computer-based activities such as testing and listening to audio books. Their small size still provides excellent quality sound, comfort, and can easily be carried from lab to classroom.

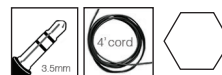

## AE-215

This earphone model offers soft, flexible silicone ear tips that fit comfortably in the ear. This helps block out surrounding noises keeping the student from having to turn the volume up too loud.

## DX-992

The DX-992 earphone offers fantastic sound quality with comfortable silicone ear tips and passive noise-cancellation.

*This model is available in retail packaging.*

## AE-5

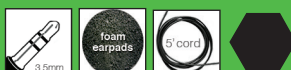

The AE-5 is a basic earbud for testing and other quick uses. It does not have earpads, but still provides a level of comfort with good sound.

## JS-75

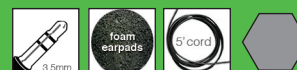

Another basic model earbud in the AVID line that has small, soft foam earpads. Providing good quality sound and comfort at an affordable price.

## TT-3

The TT-3 earbud has an attractive two-toned silver finish and is individually packed in a convenient zip top silver storage bag with center hole punch.

“

Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is most important.

”

- Bill Gates  
*Founder of Microsoft.*

## AE-1M

The AE-1 is a quality earbud that offers superior sound quality and features an in-line voice sensitive microphone for use during testing and recording sessions.

# Organization and Storage Solutions

Storage headphones are the ideal solution for easily assigning one headphone to each student. Each headphone has an adjustable headband and is the perfect size and weight to fit a wide range of grade levels. We also offer a large plug adapter that adds to the versatility of devices. Included is a transparent bag with a convenient slide closure. The bags make it easy for teachers to label, or they can be personalized by each student.

## AE-711A

The AE-711A is an affordable choice to assign one to each student. Students tend to be careful when it is their own property. The small size makes it easy to store in their desk or locker.

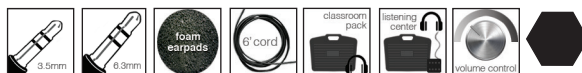

## AE-711VA

Very similar to the AE-711, this headphone is equipped with padded vinyl earpads. The vinyl is easy to clean, and the padding provides comfort. The earpieces rotate flat for easy storage.

## AE-711VCA

This lightweight and adjustable headphone is perfect for audio books and other audio applications. The volume control allows students to listen at a level that is comfortable to them.

## FV-060A

This medium sized personal headphone can easily be used as a lightweight lab headphone. The earpads fit just around the ear to help block out surrounding noises. The earpieces rotate flat making it easy to store in a desk or backpack.

Save money and order personal headphones for each student with an AVID Classroom Pack!

## Classroom Pack

A number of AVID models are available in Classroom packs, containing up to 30 headphones. Look for the Classroom Pack icon next to your favorite headphone. The protective hard case protects your investment and helps ensure the longevity of each headphone, while providing a great way to store and transport.

**Classroom packs include a storage case with \*12-30 headphones or headsets.**

## Listening Center

This is a great option for working in small groups with one computer or monitor. The included jack box allows for up to 8 students to plug in their headphone or headset and comfortably share in the learning experience. Look for the Listening Center icon next to your favorite headphone.

**Listening centers include a durable storage case, one 8 input jack box, and \*6-8 headphones or headsets**

*\*Product quantity based on chosen model. AVID customer service is happy to assist. Contact us at 888-575-2843.*

As classroom sizes continue to grow, so has the need for the educator to be clearly heard.

AVID offers a solution with quality PA systems. Available in three different sizes to fit your space and guarantee all students will hear the lesson without forcing to strain or repeat.

Offering rechargeable units with an AC/DC wall charger, and all models come with a quality microphone perfectly matched to the unit for the best quality.

# PA Systems

## PA-122

With 6 watts of output power, this unit is perfect for projecting your voice in a smaller classroom setting. The volume control dial is conveniently located on the top of the unit for quick adjusting. The simple design makes it very easy to operate and wear around the waist or hung from the neck. Just plug in the included headset microphone and go!

*Operates on AA batteries (included)*

**Perfect for a class of 20-30 students.**

**Perfect for a class of 30-40 students.**

## PA-133

There is no need to repeat yourself when using the PA-133. Offering 20 watts of output power, this unit helps to avoid raising your voice for everyone to hear. Easily clip onto a belt or waistband or use the provided neck lanyard. The PA-133 comes with a comfortable headset microphone that is plugged directly into the unit. This sleek system offers the option to record the lesson onto a flash drive or SD card, so absent students do not miss a lesson. It also has the ability to play back the audio from the flash drive, SD card, or on an external device through the line-in port and transmit FM radio.

## PA-216

The PA-216 is a lightweight portable PA system with 35 watts of output power. This unit is great for times when movement is necessary, such as field trips, lectures, or even recess duty. It can be carried by the sturdy molded handle or over the shoulder with the provided strap. It comes with a wireless hand-held microphone that allows for cord free movement within the specified range. Perfect to set on a podium or stage for lectures, speeches and meetings. The USB port provides the option for playing back audio from a flash drive or an external device through the line-in port.

**Perfect for small gymnasiums, cafeterias, or auditoriums.**

# AVID Accessories

## 8KP63M

Mono with eight 6.3mm sockets and volume control.

## 8KP35S

Stereo with eight 3.5mm sockets and volume control.

## 6KP35S

Stereo with six 3.5mm sockets and volume control.

Multiple inputs allows for the creation of several small learning groups within one classroom. Simply plug the AVID Jack Box into a tablet, MP3 player, computer or other audio device and have 6-8 students listen simultaneously while using headphones. Each Jack Box comes with 6.3mm and 3.5mm plugs, making them compatible with most devices.

## Storage Case

Safely store your products and keep them clean with the AVID storage case.

Made of a lightweight and durable ABS plastic with locking tabs.  
Dimensions: 23" x 19.5" x 5.5"

## TRRS Adapter

Easily convert your listening device with the TRRS plug adapter. It takes a single TRRS plug and converts it to dual plugs.

*Two 3.5mm plugs  
One 3.5mm TRRS female plug*

## Volume Control Adapter

Add personal volume control to any model that has a 3.5mm plug.

## Vinyl Earpads

Soft and padded earpads that are easy to clean. Great for replacing removable earpads. Contact AVID for available sizes.

## Foam Earpads

Helping to keep environments hygienic, these replacement foam pads are great for multiple people reusing the same headphone. Contact AVID for available sizes.

## Splitter

Easily turns one headphone jack into two. Simply plug two headphones with a 3.5mm stereo plug into the female sockets and plug input jack into your audio source.

## 6.3 mm Adapter

Quickly transform a 3.5mm stereo plug into a 6.3mm stereo plug.

## Storage Bag

Keep your headphones, headsets, earphone and earbuds clean and ready for use with a sealable storage bag. Contact AVID for available bag types and sizes.

Standard Dimensions: 10" x 12"

## Extension Cord 10"

The AVID cord extender makes your listening device cord 10' longer. Compatible with a 3.5 mm stereo plug.

## Fishbone

To help prevent 3.5mm pin breakage, the in-line Fishbone adapter flexes when the attached audio cable is suddenly pulled from the jack at an angle. This allows the 3.5mm pin to disengage smoothly.

# AVID Warranty Information

## LIMITED WARRANTY

### Coverage

AVID products purchased by consumers directly from AVID or an authorized AVID distributor/reseller, carry our limited warranty. This warranty is extended only to the original end-use purchaser or the person receiving the product as a gift, and shall not be extended to any other person or transferee.

AVID warrants that this product, when delivered to you in new condition, in original packaging, from AVID and used in normal conditions, is free from any defects in manufacturing, materials and workmanship for the following periods from the date of retail purchase by the original end-use purchaser:

Multimedia players including CD, MP3, Cassette, Radio, etc. – 1 year after date of purchase

Jack Boxes – 1 year after date of purchase

Headphones and headsets (exclusions below) – 1 year after date of purchase

USB headphones and headsets – 6 months after date of purchase

Personal headphones and headsets (i.e. AE-711 line, AE-812) – 3 months after date of purchase

Disposable headphones and earbuds – only the return policy applies

\* Products may be discontinued at any time.

### Exceptions

This warranty does not cover defects resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accident; excess moisture; insects; lightning; power surges; connections to improper voltage supply; unauthorized alteration or modification of original condition; damages caused by inadequate packing or shipping procedures; loss of, damage to or corruption of stored data; damages caused by use with other products; product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/ or authorized, or repair of products damaged by these modifications; and products purchased from unauthorized dealers.

### Our Commitment

During the warranty period, we will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

## RETURN POLICY

### What you must do to obtain Limited Warranty Service:

#### Return product, with proof of purchase, using the following procedures:

1. No returns will be accepted without prior authorization;
2. Contact AVID for specific return and shipping instructions;
3. You will receive a Return Merchandise Authorization (RMA) number;
4. Label and ship the product, freight prepaid, to the address provided by AVID;
5. The customer will pay shipping, insurance or transportation charges from their site to AVID, or any import fees, duties and taxes.
6. Place any necessary RMA number prominently on the outside of the carton.
7. All returned merchandise is subject to a 15% restocking fee.

### Requirements

All product must be unused in original packaging, in resalable condition and include all components including manuals, cables, ear pads, etc., within 30 days of purchase. Cartons not bearing a return authorization number, where required, will be refused. All returns must be prepaid.

### Other Conditions

THE PROVISIONS OF THIS LIMITED WARRANTY ARE IN LIEU OF ANY OTHER WARRANTY, WHETHER EXPRESSED OR IMPLIED, WRITTEN OR ORAL, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. AVID'S MAXIMUM LIABILITY SHALL NOT EXCEED THE ACTUAL PURCHASE PRICE PAID BY YOU FOR THE PRODUCT. IN NO EVENT SHALL AVID BE LIABLE FOR LOSS OF, DAMAGE TO OR CORRUPTION OF STORED DATA, OR FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES HOWSOEVER CAUSED INCLUDING WITHOUT LIMITATION THE REPLACEMENT OF EQUIPMENT AND PROPERTY, AND ANY COSTS OF RECOVERING, PROGRAMMING OR REPRODUCING ANY PROGRAM OR DATA STORED IN OR USED WITH YOUR AVID PRODUCT.

### Other Legal Rights

This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.
