

The world's leading education software

Get one-touch access to formative assessments, easily create activities, record your lessons, embed YouTube clips in lessons and so much more. You can even install SMART Notebook® on your home computer and send lessons directly to your classroom's SMART Board®.

**Download free
45-day trial**
smarttech.com/notebooktrial

SMART Notebook is found in 2.4 million classrooms for good reason:

It makes creating interactive lessons that students enjoy quick and easy. You can tailor your lesson content to any grade level and subject in a few minutes. With SMART Notebook, you can also track student progress on the fly with formative assessment tools, and incorporate the devices students love into the classroom experience.

You can even install SMART Notebook on your home computers, so you can prepare lessons anytime.

PART OF THE SMART Learning Suite

Your **SMART Learning Suite subscription** includes SMART Learning Suite Online, plus collaborative workspaces, formative assessments, game-based activities and interactive lessons.

Key Features

Easy lesson sharing

Teachers can easily send SMART Notebook lessons from anywhere to any SMART Board with iQ. You can also share lessons by emailing a link.

Assessment

SMART response 2 is a quick and easy way to conduct formative assessments. Access it from Notebook with one click.

Create lessons in minutes

SMART lab has an array of customizable activities and themes. It's fun, engaging and you can access it from Notebook with one click.

Free lesson resources

SMART Exchange houses 60,000+ free resources and connects you to a community of educators. Access it directly from Notebook.

YouTube® add-on

Search YouTube directly within Notebook by opening the add-on. Once you find a video you want, add it to your lesson and resize it for your workspace.

Install Notebook at home

A subscription lets you install SMART Notebook on up to four computers, including your home computer.

SMART Notebook Player app

Move freely in the classroom while maintaining control of your Notebook lesson on the SMART Board with iQ with the free app.

SMART Document Camera integration

Turn everyday objects into captivating digital images that students can write on and move with their hands.

Math-specific tools: Geogebra

Geogebra provides powerful tools for all grade levels, including easy equation editing, 55,000+ math objects and activities for geometry, algebra, calculus and statistics.

Record your lesson

SMART Notebook Recorder allows you to record your lesson, so students can replay it to learn at their own pace, inside or outside the classroom.

For a full list of features visit smarttech.com/notebook

Compatible with all SMART Board® displays and with Epson BrightLink® Interactive Projectors.
