Check student understanding effortlessly

What better way to ensure student success than to instantly see how well they've understood a lesson? Create a question set to complement your lesson in just a few minutes. Students answer the questions on their desktop computers, laptops, tablets or phones. Teachers get instant results immediately after its completed in a pie graph or word cloud and can also export the saved results.

PART OF THE SMART Learning Suite

Your **SMART Learning Suite** subscription includes SMART Learning Suite Online, plus collaborative workspaces, formative assessments, game-based activities and interactive lessons.

Key Features

It's a simple interface, allowing you to easily **create formative assessments in under five minutes.**

No training required, seriously. response 2 is that intuitive.

Access response 2 with **one click from SMART Notebook.**

response 2 allows students to respond to questions **using desktop computers, laptops, tablets and phones.**

Results are tabulated immediately, so you instantly know whether students have understood. Results can also be exported to save results or import into grade books.

Save, edit and **reuse question sets again.**

Use your SMART lab questions in response 2 and vice versa.

Set time limits to answer each question.

All students **start assessments at the same time** when you're ready.

Drag and drop images on to questions and answer choices.

Add **multiple choice, multi-answer, opinion and open field** questions.
