

Blancco File Eraser

The only solution Common Criteria certified to permanently remove files on PC computers, laptops and servers with a full audit trail to help achieve compliance

Why Blancco

As the de facto standard in data erasure, Blancco provides thousands of organizations with an absolute line of defense against costly security breaches, as well as verification of regulatory compliance through a 100% tamper-proof audit trail. Our data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies around the world. No other security firm can boast this level of compliance with the most rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

Blancco File Eraser ensures full compliance and enhanced security by automating data erasure routines that selectively erase data on active PCs, laptops and servers.

Blancco File Eraser makes it easy to automate a certified data sanitization process for files and folders that become redundant, obsolete or trivial on PCs, laptops and servers still in use.

Backed by the testing and certification of Common Criteria, Blancco File Eraser allows your organization to easily manage, automate and certify data erasure routines - allowing users to reduce errors while enhancing security and compliance.

Key Benefits

Securely Erase Data in Live Environments

- Automated, targeted erasure prevents the leakage of sensitive data.
- Use internal and external policy-based scheduling by implementing rules and automatic routines to securely erase files and folders according to your internal security policies or external regulations.
- Avoid the need for system downtime during the erasure process.

Safely Monitor and Report on all Erasure Activity

- Validate compliance among national and international regulatory bodies, including PCI DSS, EU GDPR and HIPAA and utilize advanced reporting features to ensure a tamper-proof audit trail.

Refine Internal Processes and Improve Transparency

- Save time and resources with easy installation onto existing systems with remote installation and deployment.
- Take advantage of task automation capabilities, which allow automated erasure and increase productivity.
- Help strengthen knowledge and awareness of internal policies and processes across the business with scheduling and integrated erasure routines.

Technical Specifications

ERASURE <ul style="list-style-type: none"> Erase a variety of files from programs like Microsoft Excel, Word and PowerPoint Overwrite selected files (including previous versions stored by Windows), free disk space, temporary files and the recycle bin Instantly erase files via drag-and-drop from the desktop to Blancco File Eraser Erase files and folders on local computers Remotely execute secure erasure of files and folders on servers and in storage areas across the network Certified for use with Windows 10, 8, 7, Vista and XP Supports all global data Erasure standards 		INSTALLATION & USER MANAGEMENT <ul style="list-style-type: none"> Easy installation on PCs and servers (both physical and virtual machines) Remote installation and deployment available through MSI package Central configuration of clients and multiple installations through group policy files Easy-to-use Windows GUI and advanced command line interface supporting multiple parameters for full flexibility of integration Can be run from a standalone USB stick when plugged into a computer or server for easy mobility and on demand operations* <p><i>*This requires a different version of Blancco File.
