

Blanco Management Console

Centralized, Secure Point of Control for Report Collection and Data Erasure Verification

Why Blanco

As the de facto standard in data erasure, Blanco provides thousands of organizations with an absolute line of defense against costly security breaches, as well as verification of regulatory compliance through a 100% tamper-proof audit trail. Our data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies around the world. No other security firm can boast this level of compliance with the most rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

Prove, enforce and manage your compliance plans and policies with Blanco Management Console.

Blanco Management Console provides data erasure management access to internal users, administrators and support staff. Designed to be a centralized and secure point of control, you can view all data erasure licenses, create and modify users and groups, view operator throughput, monitor erasure activities and collect tamper-proof reports for easy auditing.

Key Benefits

Safely Monitor Data Erasure Activities and Report Precisely on Results

- Give managers insights into staff performance with an operator throughput widget that can be filtered by product, group or date range selected.
- Store, share or search for reports in a tamper-proof environment to prove you've met data protection regulations within national and international agencies, including PCI DSS, HIPAA, FedRAMP and Cloud Security.

Streamline Internal Processes and Strengthen Transparency

- Integrate data erasure into your existing asset management infrastructure in order to automate workflows and simplify compliance.
- Identify performance issues across all of your assets and quickly access reports in order to solve any potential production shortcomings.

Prove Data Sanitization Across the Entire Data Lifecycle

- Easily scale data protection policies across physical, logical and virtual environments and optimize operations with erasure statistics and business intelligence dashboards.
- Centralize control and report on all erasure activities with 100% certified and tamper-proof reports.

Technical Specifications
