

Adobe Creative Cloud K-12 licensing overview

Flexible licensing options for primary and secondary schools and districts.

Bring Adobe Creative Cloud to your school or district with affordable, easy-to-manage licensing options available through the Adobe Value Incentive Plan (VIP). You'll enhance teaching and learning—whether classes are in-person or online—while helping students develop essential digital skills for college and career success.

Benefits include:

Universal access for all ages

Give your students, teachers, and staff access to the latest industry-leading creative software so they can design, share, and publish compelling content across all media and devices. Even students under the age of 13 can have their own Creative Cloud accounts, provided that your school deploys in accordance with COPPA and other legislation.

Budget predictability and flexible deployment

A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for devices owned or leased by the school, and users attending or working for the school. And all licensing options include a web-based Admin Console that makes it easy to centrally manage and deploy licenses.

Access for in-person, hybrid, and distance learning classes

With named-user licenses, schools can give a student or teacher access to Creative Cloud on any device they use, including personal devices at home. This enables access to essential digital tools whether classes are in-person or remote. Schools can also purchase shared device licenses to allow access to Creative Cloud apps on a given device in the lab or classroom.

Integrates with the tools you already use

Your students and teachers are already using many different apps in their teaching and learning. With Creative Cloud integrations, we make it easier to access these tools through Google Classroom and Drive, Microsoft Teams and OneNote, Canvas, and more.

Free instructional and distance learning resources to help engage students

The Adobe Education Exchange <https://edex.adobe.com> offers free professional development and peer-to-peer collaboration, plus Common Core and NGSS-aligned lessons for general education classes using Adobe's creative tools. And as schools continue distance learning or hybrid classes, we are here to assist you. Check out free lesson plans, courses, blog posts, and webinars from Adobe and our partners. <https://edex.adobe.com/distance-learning>

Licensing options:

Creative Cloud for enterprise All Apps for K-12

Named-user licenses

- Complete set of Creative Cloud applications and services (age-appropriate only)
