Save 10%

Why Space Connect for meeting room management?

- Exceptional affordability and value
- A completely flexible, no-risk, no min-term agreement
- Super-fast deployment: same-day setup, and multiple sites within less than a week!
- Easy self-configuration: quickly add and configure desks, rooms, floors and sites
- Detailed real-time analytics built-in

Smooth, seamless meeting room management with Space Connect

Space Connect delivers a feature-rich meeting room solution that syncs automatically with your customers calendar environment (O365 or Google), in real-time.

So, your organisation's existing calendar is always the single source of truth – no booking-clashes, no confusion. Just smooth, convenient, seamless room booking.

Better meetings with Yealink meeting room panels and Space Connect, together

Yealink's meeting room panels integrate out-of-the-box with Space Connect, shipped pre-loaded, for a turnkey solution that delivers exceptionally easy and efficient room status availability and booking.

Benefits of Space Connect + Yealink room panel and integration:

- No additional charge for Room Panel app
- Fully automate the meeting room management process
- See real-time occupancy and availability info, on the fly
- Check into / check out of meetings early
- Extend current meetings
- Use one-tap booking for on-the-fly / ad hoc meetings
